

JOB ORDER

Date Requested: February 3, 2026
Requested By: Nestor Villanueva, Fleet Supervisor
Department: Engineering

Description of Work:

Perform scheduled servicing on the company delivery truck with plate number XPT-4471. Change the engine oil and oil filter, inspect the brake pads and replace if worn beyond the safe limit, check the transmission fluid, and rotate the tires. Test the battery charge and inspect all exterior lights for proper operation. Road test the vehicle after servicing to confirm smooth braking and steering response before returning it to the delivery pool.

Priority: Normal
Target Completion: February 6, 2026

Approved By: _____
