

Company Job Order Form

Requested by: Angelica Bautista, on behalf of the Engineering department.
Date requested: June 24, 2026.

Description of work: the automatic sliding door at the main entrance has been sticking intermittently and failing to close fully on some cycles, creating a security and air-conditioning loss concern. Please inspect the door's track, sensors, and motor assembly, clean and re-lubricate the rail, and recalibrate the sensor range so the door opens and closes reliably. Test through at least ten full cycles before signing off.

Priority: High
Target Completion: June 27, 2026

Approved By: _____
