

Purchase Requisition Form

This request is filed by the Finance department on June 24, 2026.

Requested by: Rolando Cruz

Department: Finance

Item description: replacement label printers and thermal label rolls for the records archiving project, to replace two units that have stopped feeding paper reliably.

Quantity: 3 units (printers) and 20 rolls (labels).

Budget: PHP 36,500.00.

Justification: current printers are over five years old and repeated repair attempts have not resolved the feed issue; continuing to run the archiving project without reliable label printing risks delays to the retention schedule.
